Hixson High boasts three Future Ready Institutes that empower students through engagement; linking career aspirations and goals in small learning communities to foster success in both the classroom and beyond.

Students in any of the chosen Institutes have access to advanced post-secondary opportunities such as Advanced Placement, Dual Credit and State Dual Credit courses. Often, these learning opportunities are paired with student career interests to advance coursework in chosen pathways of study. In addition, each institute offers licensure or certification opportunities that directly link career pathways with career opportunities.

Hixson embodies the idea of family through partnerships that harbor community involvement. Partners include Chick-fil-A, CHI Memorial, Life Care Center of Hixson, FlyWheel, Chattanooga Tractor and many others. These partners provide a multitude of support avenues for student growth and immersion in real world possibilities.

## **FUTURE READY INSTITUTES:**

- Institute of Business Leaders and Owners
- CHI Memorial Institute of Healthcare and Medical Careers
- Institute of Integrative Agricultural Food and Natural Resources
